BUILDING SCIENCE – CIVIL FACULTY

AL TTC endeavours to bridge the gap between Industry requirements and the knowledge base of engineering graduates through practical oriented training in various disciplines of Telecom, Civil, Electrical and Management & Soft Skills, which will enhance their competence & practical skills and greatly boost their employability and career prospects.

The Building Science- Civil Faculty of AL TTC is engaged in imparting training in Building Science Technologies. The Building Science-Civil Faculty comprises of an experienced and technically competent faculty of Civil Engineers having 20 to 30 years of experience in Planning, Design & Construction and Maintenance of High rise buildings, Telecommunication Towers and large campuses in various parts of India.

Building Science-Civil Faculty is conducting training programmes - workshops, seminars and webinars covering all the aspects of Multi-Storeyed Building Construction viz. planning, design and construction including Green Building concept. The training programmes cover latest developments in building construction technologies and the course content vary from basic aspects to advanced techniques & emerging trends. We also provide customized training courses as per specific needs.
